“CLASSY & INSPIRING”

BIOGRAPHY

With over 20 years of experience in the event industry, Jacqueline Vazquez is the Founder & CEO of Lifetime Events by Jacqueline. She is a Master Wedding Planner™ and Certified Wedding & Event Planner. In addition to being a sought-after wedding & event planner, Jacqueline is an industry expert, educator, mentor, speaker, and author recognized internationally.

Jacqueline is known for spreading her inspiration and motivation, her passion to educate, and share knowledge in her industry within the United States, and internationally including China, Europe, the Caribbean, and Latin America countries. She has been a long-standing member of organizations including Weddings Beautiful Worldwide, Association of Bridal Consultants, and Belief Wedding Creators.

Jacqueline has been building her personal brand “Classy and Inspiring” over the last 10 years in order to focus on the need for education, mentoring and speaking in the event industry on a global level. In addition, she has created an international educational program called “W.I.N.S.” Wedding Industry Network Studies. This program has allowed international wedding students and professionals the opportunity to learn about American wedding practices, protocols and traditions, as well as, meet prominent event leaders in NYC. So far, this program has been completed by students and professionals from China, Japan, Brazil, and Mexico. Her goal is to create and build this into a global network.

Jacqueline’s overall goal is to assist in defining direction, building confidence, and developing a strong supportive community of educated and powerful leaders throughout the event industry on a global level. Jacqueline has developed a knack for networking and building relationships; she created a networking name which adds value to what a professional networking event should involve – she calls it “Net-Learning”. In light of the pandemic, she has joined the board of the NY/NJ Events Coalition advocating for the event industry.

Other than being active in the event industry, Jacqueline is connected locally and nationally with organizations including National Wish Upon a Wedding, Girls Inc Westchester, Gilda’s Club Westchester, and Cerebral Palsy Westchester. She believes in giving back and supporting organizations dear to her heart. Jacqueline holds a Bachelor of Business Administration and before she discovered her passion for events her career started in Accounting.

Jacqueline has been featured in various editorials and publications. She has been highlighted as a local celebrations expert based on her featured editorial in the Scarsdale Celebrations publications. She has been the recipient of industry awards and nominations, and the recipient of the 2017 Celebrating Diversity in Business Champion Award.
